

WATERSKI COURSES

Since 2002, we have been providing professional waterskiing lessons. We use modern equipment and facilities for the best results. Beginner lessons are done outside normal operating hours. There is a quick learning system in place, slow-motion cable so that anyone can be able to ski within an hour. After that, you can show off to your friends! Bookings and pre-payment are required.

Basic Beginner Introduction Course +/- 15min

First, the theory will be discussed before entering the water. You will learn the basic fundamentals of waterskiing, wakeboarding, and kneeboarding from getting into the water and standing up, learning the right posture, what to do, and not do. This lesson can be done even if there are other people at the Resort as it is only theory.

Group Beginner Course (1 hour, minimum 4 people)

Learning on a cable system is a perfect introduction to wakeboarding, waterskiing, or kneeboarding with one to one coaching from an experienced instructor on our private lake. Our instructors will run the lesson completely at your pace starting from a theoretical on land lesson introducing you to the basics and on water lesson with the do's and don'ts. The easiest is to start off with a kneeboard to get a feel of going around the cable. Once you are confident, you can try to waterski and then wakeboarding.

Private Wakeboard Lesson

Wakeboarding is a fast growing sport on the Cable. Most people start off with the kneeboard or with waterskis before they turn to wakeboarding. It is a great way to get a feeling for the cable. Our instructors are well equipped to get you on a wakeboard within an hour
